To the Editor of the New Era.

DEAR Six-Having spent the best part of my ife in teaching the young-not, I hope, without profit- I would still avail myself of any opporshipped direct to Newmarket and pass through tunity in thy power for their advantage. To such, I would say, that the time is not distant when they must assume the responsibilities now held by their parents-when the great inerests of Agriculture, Commerce and Manufactores, as well as the political interests of the penalty, will come into their hands; and to be prepared to do honor to those interests should be the great aim of their present lives. To do this, my young friends, you must not only seek to acquire a knowledge of the aits and sciences as they now exist, but store to carry them forward as those who have gone before

You have now, happily, facilities for school education, which those now on the stage did not enjoy; and if you still suffer inconveniences, it is to be hoped when you have the reins in your own hands, you will strive to remedy those inconveniences. But a school education, is not all you require. You may learn the rules of reading at school; but if you would be a practical reader, you must habituate yourselves to a constant course of reading-and so on of other sicences.

I would not restrict you in the enjoyment of juvenile sports and manly exercises: far from it. There are necessary for your physical developement. But if you make it a rule to devote the time now spent in idleness, or useless nonsense, to reading or conversation with older persons, you will the assonished at the fund of

Hon. Mr. Cameron moved that the following Resolutions on the subject of the Asessment Laws of Upper Canada be referred to Committee of the Whole :-

1. No income under one hundred pounds per annum shall be assessable.

2. The scale of taxation of personal property shall be on an increasing ratio of £100 on all sums, under £1,000, of £200 on all sums between £1 000 and £2.000 of £250 on all suins between £2,000 and £3,000, and of £500 on all sum above £3.000;

source whatever, not specially exempted from taxation, exceeding £100 per annum, shall be assessed for the amount derived from such income during the year-then last passed, such last year's income shall be held to be his net personal property for the purpose of such assessment. In moving the above reso. lutions, Mr, Cameron urged that in justice, new principle of assessment should be declared in reference to mercantile property. In stead of a merchant's stock being taxed, which anight lie on his shelves for years, only his income should be taxed in the same way, as that | vision, of a lawyer or other professional man

Atty. Gen. Macdonald said that the present Assessment Laws had been in operation for some years, without alteration, and the various bodies and parties interested had expressed no want of satisfaction with them.

Hon. Mr. Cameron said his chief object had been to call the attention of the floure and the Government to the subject, and the object having been attained, he would in press the resolutions.

Mr. Hartman pointed out a grivrance un or the present assessment laws, in their bearing with undue severity on farming property situated within the limits of incorporated towns and villages—the annual value of a quarter of an acre and under being fixed at 6 per cent of its whole value, and that of any amount of property over a quarter of an acre at 10 per cent. This might be a proper provision in cities, in order to bring land into the market for building, but it was not so suitable for villages, within the limits of which there was often a good deal of land that would not

THE TRIBUNE FOR 1857.

WHE Election is past, and its result proves I that the work devolved on the Republican party is not yet complete. In all the Eastern and Northern portions of the country-in New England, New York, Ohio, and the North West the Republican banner floats in triumph; while in Southern Jersy, Pennsylvania, Indiand and Illinois-in short, wherever few newspapers are laken, and where common schools are too new and too feeble to have educated the present generation of voters-the black that of Slavery obstructs the sunshine. A stranger to America might distinguish those portions of our country most blessed with Education, Idtelligence, Thrift and Virtue, by scanning the returns of the Presidential contest of 1856. We have failed of present success, not because the People are against us, but because that large portion who did not hear or read the argament, and do not know what were the real questions at issue, went almost solid against us, reversing the verdict which the great majority of the educated and intelligent endeavored to

These facts indiente the path of pressing du-

ty. With no unmanly repinings over what is irrevocable-with no abatement of heart or hope because the trimmph of Liberty in her new orders is not won at the Long Island and White Plains of her struggle-with no stradow of regret that the responsibility of governing is" not coffided to her champions before the people were fully ready to sustain them-we bogin afresh the twork of diffusing that vital truth which, in regard to the concerns of this world, as well as of the next, makes Free indeed. Now, in the Slave Power's heyday of Dictory, when its ministers and services, are gathering and plotting to make the most of their triam of and "crush out" the spirit which they vainly believe to be cracified and entombed-now, when the faint-hearted or cold-hearted, who lately basked in the sunshing of our premature Blanghters for Easter, two 5 years old steers fed by hopes, are handing off to repair dimages and Mr. George Turry, and a 6 years old cow and 4 talking of abandoning the rugged giena of polreark old Heifer feel by Mr. Henry Widdifield the lines for more quiet and flowery fields-now. in this hour of weariness and shadow, THE TRIBUNE tenews its yows of eternal hostility in every form of tyranov over the bodies or souls of men-to the shuneful assumption that the benighted and treble, whether in soul ist body, are to be regarded and treated as the convenience of the prey of their wiser of strong. brethren-to the domestication of despots or digarchs, whether of empires of plantation of to the enslavers of cities and kingdoms in Euope, or the breeders of children for the anotion-blick and the cotton liefd in Yirginia or
